

8th Quality Conference

Session 10: A Copernican revolution: humancentric approaches facilitated by ICT? Title: MOBILE WORKPLACE OF DISTRICT (COMMUNITY) INSPECTOR

Kęstutis Lančinskas Chief of the Vilnius County Police

...process of police work with residents is ineffective. ... there is too much of paper and inefficient work. ... Vilnius Police officers use 8720000 pages per year and if you would straighten them, it would make 2700 km, what makes 11 ares of the forest.

... too much work time is spent at the table. ... information collection process is unstructured. ... collected information is recorded in paper. ... paper information is ineffective for the exchange with other police units of European Law Enforcement Institutions.

... time to change?

Presidency of the Council of the European Union

Let's remember how did we work 20 years ago

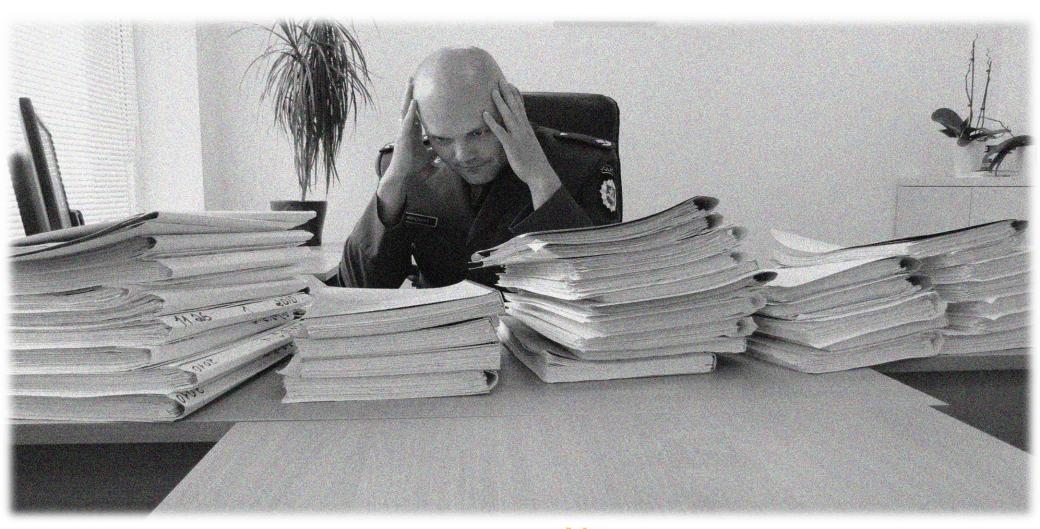

Past. Difficult Information Management

Past. Law Offence Formalization – up to 3 hours

Presidency of the Council of the European Union

Lessons we learned. Possibility to see a map with objects in the territory of a concrete district inspector.

Possibility to see which district inspector

supervise a concrete territory.

24

Implementation started on 1 October 2011

79.83 percent

funded by the funds of the European Union. Financed by the European Union Commission- Directorate– General Home Affairs- Program "Prevention of and Fight Against Crime".

Project budget– EUR 1 095 400.00 , European Union finances EUR 874 444.99.

Presidency of

he Council of the

Cooperation – coordination with the representatives of the European Union was very fluent, mutual trust was felt. All project implementation and management group devisions were accepted. This especially facilitated smooth project implementation.
